

DO YOU GET UP
WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspaper is sure to know of the wonderful cures made by Dr. Kilmor's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmor, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmor's Swamp-Root is not recommended for anything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helplessly poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmor & Co., 510 Broadway, N. Y. The regular fifty cent and dollar sizes are sold by all good druggists.

Great Benefit to Farmers of Florida

Mr. W. G. Haynes, general agent of the McCormick Harvester Company, headquarters at Atlanta, has recently written Capt. F. D. Posser a letter from which we make the following extract.

"I am just in receipt of the Ocala Banner under date of the 12th in which appeared the article written by yourself touching on the McCormick machines in General, and especially upon the corn harvester and shredder. Your views along this line are correct and if farmers of your state will turn their attention to products such as corn and grass it will only be a short time until your state will be noted for stock raising. I believe as you do that cultivated grass is much more valuable than this wild grass that usually follows after the corn crop or other small grains harvested early in the season to permit of the undergrowth making a fair hay crop."

Whist Club Entertained

Wednesday afternoon Mrs. Morgan C. Looney entertained very delightfully the Married Ladies' Whist club at Mrs. William Anderson's on Fort King avenue. Sixteen ladies were present and progressive whist was enjoyed for an hour or so, after which refreshments were most charmingly served by the hostess assisted by Mrs. Anderson.

Georgia Minstrels.

Don't make the mistake of the old proverb. "Don't wait until the horse is stolen before putting a lock on the stable door." Don't wait until after Saturday, January 24th, which is the date of Richards & Pringle's Famous Georgia Minstrels, and then say, I wish I had gone, as everybody said it was great. Go and buy your ticket right now and be right. All the good things in minstrelsy will be served in a palatable manner. The parade will be at 11 a. m.

New Members.

Messrs. N. W. Harrison, A. E. Delouet, Baxter Carr, Josiah Varn, R. R. Carroll and Mr. Mitchell, of the Montezuma Hotel, enrolled themselves as members of the Ocala board of trade at the meeting Wednesday night.

The "Three Kids."

STARKES FERRY, Jan. 16, 1903.
To the Editor of the Ocala Banner.

The new and beautiful side-wheel steamer, "Three Kids," owned and commanded by Capt. W. B. Baker, passed here on her way to Lake Eustis. She is well arranged and licensed to carry seventy-five passengers. The Captain and family were aboard, making with the crew about fifteen in number. The skilful pilot, Mr. Harris, carried her through the opening of the bridge without touching or being detained a moment. Your humble servant was invited to accompany them to Eustis but circumstances prevented.

Yours hastily but truly,
O. O. E. E.

The Ocala Bottling Works is a growing concern. It has had recently installed a gas engine, purchased from the Ocala Foundry and Machine Works, and expects to do a big business the coming season.

Marion Winning a Reputation.

In Marion county the raising of hogs has taken a great step forward now, owing to the establishment there of a cold storage plant, where thousands of pounds of pork are being brought for chilling and curing.

Marion county hams and bacon are being placed on the market and will soon have a reputation on account of their peculiar excellence.

With a cold storage plant located in St. Augustine, and range hogs with supplementary feed of cassava, mangelwurzel beets, velvet beans and other fish and fat producing foods, the sweetest meat on earth could be produced here. There is no reason why St. Johns county should import a pound of hog products. With the introduction of cold storage the problem of curing meats in warm countries has been solved. All that is left to do is to raise the hogs on the range, feed them occasionally and fatten them.—St. Augustine Record.

WANTED—A good blacksmith and wheelwright. Must be a good horse-shoer. Address A. G. Gates, Ocala, Fla.

Competitive Examination.

Hon. C. M. Brown, after consultation with other representatives, has called a competitive examination January 28, to fill a vacancy in the South Florida Military Institute at Bartow which entitles this county to one scholarship, the said scholarship carrying with it tuition, board, uniform, etc.

As this paper before pointed out, this is a good chance for some bright scholar.

The competitive examination will be open to all the white male students of the county.

Notice.

The regular annual meeting of the stockholders of the Port Inglis Terminal Company will be held at the office of the company in Rockwell, Marion county, Florida, on Tuesday, February 17th, 1903, at 1 o'clock, p. m.

Apply to W. T. GARY, Agent,
1-23-2t Ocala, Florida.

There's a story of a farmer and his son driving a load to market. Of the team they were driving one was a steady, reliable old gray mare and the other a fractious, balky black horse. On the way the wagon was stalled and the black horse balked and refused to pull. "What'll we do father?" said the young man. "Well," said the father, "I guess we'll have to lay the gad on the old gray." That homely compliment to women, "The gray mare is the better horse," suggests how often when there's an extra strain to be borne it is laid on the woman's back. How often she breaks down at last under the added weight of some "last straw." Women who are dragging along wearily through life can gain real strength by the use of Dr. Pierce's Golden Medical Discovery. It builds back in concentrated form the strength making material which working women use up more rapidly than it can be restored by nature in the ordinary process of nourishment and rest. Dr. Pierce's Pleasant Pellets are universal favorites with women because they are easy to take and strongly effective in curing the consequences of constipation.

TWELVE KILLED IN
TAIL-END COLLISION

Fatal Accident on the Great Northern Railroad.

LUMBER TRAIN IS WRECKED.

Strikes Snow Plow With Disastrous Results, Cars Being Piled in Heap Ensnaring Victims Underneath—Crew Awake When Crash Came.

Leavenworth, Wash., Jan. 22.—Twelve men dead and as many more injured is the result of the tail end collision that occurred on the Great Northern 5 miles west of Chlawaikum. An extra from Skykomish, loaded with lumber and three cars containing laborer, ran into a rotary snow plow, killing or injuring all of the 25 workmen. Ten cars are piled up in a heap with nine victims of the wreck still underneath. The names of the dead are not obtainable.

The injured are: Charles Dahl, back and hip injured; Peter Lohos, cut on back; Elsa McCaslin, hip injured badly; James Pierce, head cut; William Donnelly, foot and spine injured.

Sam Benson, hip and spine injured; Calvin Meyer, teeth knocked out; Lewis Becker, arm scalded; L. E. Adams, back injured, face cut; Daniel Cunningham, foot cut, fractured leg.

John Glover, right leg badly bruised. The engineer, L. E. Adams, and fireman Becker, of the freight, escaped only by a miracle. The box cars that were used for transporting the crew were next to the engine, with the cars of lumber following, and when the crash came, the lumber telescoped the box cars loaded with their human freight, killing and maiming the entire crew.

Only two escaped, and they were thrown bodily into the air, landing 30 feet away upon an embankment. The men were in their bunks and asleep when the accident occurred. Those that escaped had little clothing and were nearly chilled to death while waiting for aid.

Colonel Deitsch at Death's Door.

Cincinnati, Jan. 22.—Colonel Philip Deitsch, who has been at the head of the Cincinnati police department for a quarter of a century, is lying critically ill of pneumonia at his home. The absent members of his family, including Lieutenant Auswell Deitsch, of the Fifth Infantry, U. S. A., at Fort Leavenworth, have been called to his bedside. His physicians give no hope for his recovery. A pathetic feature of the case is that Mrs. Deitsch is herself almost at the point of death and is kept in ignorance of her husband's condition.

TRUE TO HIS TRUST.

Dying Agent John Taylor Refused to Delay Mail Delivery.

Wilkesbarre, Pa., Jan. 22.—Unconscious in his sled, with his hands clorched on the reins, John M. Taylor, for many years mail agent for the Irish Lane and Shickshinny, was carried along his route by his horses yesterday.

He died soon after being found. He was stricken with palsy at Shickshinny and refused, despite the severe cold weather, to delay his mail delivery, and, half conscious, started over the mountains.

PALMIST FORETOLD DEATH.

Hickline Laughed at Prediction but Same Came True.

Easton, Pa., Jan. 22.—Samuel Hickline, a wealthy truck farmer, residing at Roxbury, N. J., had his fortune told by a woman yesterday.

She predicted that Hickline would die before 9 o'clock at night. He went home and told his wife what the palmist had said. They had a good laugh over the matter and thought no more about it. At 8:45 o'clock Hickline fell over dead.

250 New Coke Ovens.

Birmingham, Ala., Jan. 22.—The Empire Coal and Coke Company is erecting 250 new coke ovens at Empire, in Walker county, on the "Pico" system. A. J. Reilly has the contract to build the ovens and he is to push the work to completion.

OVER LAND AND SEA.

Wireless Stations May Cover Pretty Much All the World.

New York, Jan. 22.—John Bottomly, manager for the Marconi Wireless Telegraph company, of America, has announced that work would soon be begun for the installation of wireless stations capable of covering pretty much all the world.

"In view of the opposition," said Mr. Bottomly, "it is impossible for me to tell all our plans at the present time, but a number of stations will be set up here very soon. There is no reason that I know of why communication cannot be established between here and San Francisco soon. It has been proved to our satisfaction that wireless messages can be sent over the land as well as over the sea."

"We are at present making arrangements to put a number of our stations at points along the Pacific. It is safe to say that New York will be adequately equipped, too."

JAMES G. COOPER DEAD.

Was Connected with New York Tribune For Many Years.

New York, Jan. 22.—James G. Cooper, for many years connected with the business office of The New York Tribune, is dead. Mr. Cooper began newspaper work 64 years ago. He became connected with The Tribune in 1861. In June, 1879, he went to Colorado and became one of the founders and officers of the Greeley colony. In 1871 and 1872, he served as chief clerk of the house of representatives of Colorado.

Mr. Cooper returned to the service of The Tribune in 1872, retaining his connection with that paper until five years ago, when his health failed.

In Memory of General Alban.

Panama, Jan. 22.—Yesterday being the first anniversary of the death of General Carlos Alban, the governor of Panama, who was killed on board the steamer Lautaro during the naval battle between the government forces and those of the insurgents in the harbor of Panama, memorial services were held in all the cities of Colombia.

A High Compliment to Mr. Fildes.

The writings of Hon. C. L. Fildes on political subjects are attracting widespread notice. Whether he writes or speaks Mr. Fildes has a style that commands attention.—Starke Telegraph.

Notice.

The regular annual meeting of the stockholders of the Dannelon Phosphate Company will be held at the office of the company in Rockwell, Marion county, Florida, on Tuesday, February 17th, 1903, at 12 o'clock noon.
